

Our shipments arrive in MINT condition!

Promotunity's Molded Mints are an awesome promotional item that is sure to be a big hit with recipients.

These mints could be shaped to any logo or product and are embossed with exquisite detail of wording or design.

Real-life virtuals are provided upon receiving logos and portray the exact look as when produced.

The mints are sugar-free and their flavor is a mix of spearmint and peppermint.

Each tin contains 17-25 mints (depending on their size), as well as a full colour imprint on the lid and nutritional information at the bottom.

The FOB point for the mints is Promotunity's production facility in Medfield, MA and shipping is calculated from this FOB point, yet prices include all cross-border charges.

A one-time charge for a custom-shape mold ensures exclusive ownership of the mold infinitely.
